Who makes Selectronic inverters in New Zealand?

They continue to manufacture high-quality inverters and accessories for off-grid and grid-connect systems. Able Solar is one of the distributors of Selectronic products in New Zealand. See our range of products below. New SPMC480 3.5kW Model Now Available!.

What is a pure sine wave inverter generator?

Perhaps the most dependable, quiet, and efficient generator on the market, pure sine wave inverter generators are both reliable and diverse in their applications. A pure sine wave inverter generator works by producing a continuous high-speed wave that oscillates in smooth repetition, modifying DC power to AC power.

How do I choose a sine wave inverter?

Choose the inverter based on the highest-Watt appliance you want to run. E.g. if you want to run a 900W coffee machine, you need an at least 900W inverter. At LUX Solar we source only high quality pure sine wave inverters. Modern electronics and appliances struggle to cope with the harmonics generated by noisy modified sine wave inverters.

What is a victron & powertrain inverter?

Our Victron & PowerTrain inverter converts battery power (DC) into household electricity (AC). With an Inverter you can run household appliances from your motorhome or caravan house battery. 1000W Pure Sine Wave Inverter. Power Train PT1000WL 250W Pure Sine Wave Inverter. Victron Phoenix VE Direct 250 375W Pure Sine Wave Inverter.
