

New Zealand solar container lithium battery pack

Overview

Why should you choose a lithium-ion battery container?

This success is based on the growing reputation of our Intensium lithium-ion battery containers as a reliable and cost-effective solution, combined with our capability to provide a turnkey solution comprising energy storage, power conversion and control systems.

What is containerised battery storage?

A long-term solution: our containerised battery storage solutions are built to last for decades. Your system's precious lithium-ion core is housed in an incredibly tough shipping-grade container. Battery storage from solar panels, wind turbines or water sources can give you the independence you need.

Who can use our rentable battery storage containers?

Private individuals and businesses can use our rentable battery storage containers in any setting where they can physically be installed. Benefits include: Energy independence: break free from the grid and power your home or workplace with clean, reliable energy that you control.

Who are Titan battery energy storage systems?

Which is where TITAN's battery energy storage systems come in. TITAN are veterans of the shipping container market, and over the past 35 years have become a leading provider of secure, robust containers for shipping, storage, refrigeration and offshore use. Today, we are also a name you can rely on for safe battery storage.
