

# North Macedonia wind solar and storage integration

## Overview

---

Is North Macedonia a sustainable country?

“The huge sustainable energy potential of North Macedonia, especially through wind and solar energy, is an enormous opportunity for the country, which is important in the advancement of the Green Agenda”, emphasized Holger Schröder from the European Commission’s Directorate for Neighbourhood Policy (DG NEAR).

Should North Macedonia accelerate the transition to renewables?

Like others in the region, North Macedonia must balance its need to rapidly accelerate the transition to renewables to secure its energy future with the need to ensure that future is one where both the country’s nature and people thrive.

What is wind power in North Macedonia?

Wind energy in North Macedonia is at an earlier stage but is poised for expansion. The country’s first wind farm, the 36.8 MW Bogdanci Park (1 turbines), was built by ESM in 2014<sup>15</sup>. For nearly a decade, Bogdanci remained the sole wind project—wind cap.

How much solar power does North Macedonia have?

North Macedonia enjoys high solar irradiation (1,200 kWh/kWp/year) and abundant degraded land, giving it an estimated technical potential above 5–10 GW for PV<sup>11 12</sup>. The government’s initial goal to add 400 MW of solar by 2024 has effectively been met, and new targets envision 1 GW+
