

# Northern Cyprus energy storage export

## Overview

---

How many energy storage applications have been approved in Cyprus?

The Cyprus Energy Regulatory Authority (CERA) representatives reported establishing a regulatory framework for energy storage in 2019, followed by market rules approval in 2021. The Cyprus Transmission System Operator has received 13 storage applications totaling 224 megawatts capacity, with eight applications processed and five under review.

How much money does Northern Cyprus export?

In 2014, the exports of Northern Cyprus were at \$130 million, with an increase of 11.9% from 2013, and the imports were at \$1.51 billion, with an increase of 3.6% from 2013. The main trading partner is Turkey, as of 2014, 64.7% of Turkish Cypriot imports are from and 58.5% of Turkish Cypriot exports are to Turkey.

What good does Northern Cyprus export?

Citrus is the good that Northern Cyprus exports the most. Although the TRNC economy has developed in recent years, it is still dependent on monetary transfers from the Turkish government. Under a July 2006 agreement, Ankara is to provide Northern Cyprus with an economic aid in the amount of \$1.3 billion over three years (2006–2008).

Why does Cyprus waste so much energy?

AKEL MP Costas Costa characterised Cyprus as “the only country in the world where thousands of megawatt-hours go unused due to lack of centralised green energy storage systems,” adding: “During the day we waste megawatt-hours because we lack storage, and at night we are one step away from blackouts.”
