

Off-grid energy storage power station in Gothenburg Sweden

Overview

When will a battery energy storage system be built in Sweden?

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator. The project has been projected to come online in early 2025. Neoen is headquartered in Paris.

What is the largest battery energy storage system in Sweden?

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power. The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building.

Why did batteryloop install energy storage in Gothenburg?

In Gothenburg, Batteryloop installed energy storage in the middle of the city's electricity grid. The company adds that the installation allowed the new Humlestaden district to contribute positively to Gothenburg "even before the district is fully developed" by supporting the local grid with power during peak hours.

What's going on with the Högsbo industrial area in Gothenburg?

The Högsbo industrial area in Gothenburg is undergoing renewal with Stena Fastigheter and Ikano Bostad building a new neighbourhood called Humlestaden. 3,000 flats and community spaces will soon join the existing infrastructure and Gothenburg's grid "which faces major challenges in the face of future capacity shortages," writes Batteryloop.
