

Ottawa building to install solar system

Overview

Looking to future upgrades that will advance the City's transition to cleaner energy sources, we are set to install solar photovoltaic systems this year at the Bob MacQuarrie Recreation Complex, Charles Sim Municipal Garage and Ottawa City Hall. Where will a solar photovoltaic system be installed in Ottawa?

Looking to future upgrades that will advance the City's transition to cleaner energy sources, we are set to install solar photovoltaic systems this year at the Bob MacQuarrie Recreation Complex, Charles Sim Municipal Garage and Ottawa City Hall. This builds on the existing 12 installations already in place on City facilities.

How many solar panels do I need in Ottawa?

The number of solar panels required depends on factors such as energy consumption, panel wattage, and available roof space. An average household in Ottawa will need about 20-25 solar panels, which can generate more than 6 kilowatts of power. It's important to consider reliable backup power options in case of inclement weather or power outages.

Who is Ottawa solar power?

Since 1996, Ottawa Solar Power has been a leader in renewable energy for the National Capital Region, with over 1,000 installations spanning residential homes, businesses, and off-grid projects. As Eastern Ontario and Western Quebec's most experienced solar provider, we deliver reliable, tailored, and sustainable energy solutions for every need.
