

Outdoor Solar Road Lighting System

Overview

What is a solar street light?

They consist of solar panels, LED lamps, rechargeable batteries, a remote control system, and the pole on which they are mounted. There are two designs split solar street light and integrated solar street light.

What are all in one solar street lights?

All in one solar street lights also called “ Integrated solar street lights ”, is a combination of high-efficiency solar panels, lithium batteries, LED modules, smart controllers, PIR or Motion sensors, etc. Easy to install and transport Split solar street light is divided into complete split and All in two types.

What is a Falcon solar street light?

Series Falcon solar street led light combined with Lithium battery and Mono Solar Panels to ensure the long life and high efficacy of the solar street light system.

Are solar powered outdoor lights a good idea?

Traditional lighting requires you to dig up large portions of earth in order to connect to the power grid. With outdoor solar lights, there's no need to get your hands dirty or make a mess of your property. When the power goes out, traditional outdoor lights fail. Not solar powered lights!
