

Outdoor base station label material

Overview

Can outdoor labels be used on construction equipment?

For example, faded outdoor labels on construction equipment can lead to safety risks or inventory errors, highlighting the need for robust industrial marking solutions. Non-durable or cheap labels, such as standard paper-based thermal labels, are ill-suited for outdoor use.

Why do you need outdoor labels?

Outdoor labels, such as durable labels and waterproof barcode stickers, provide robust solutions for marking equipment, products, and assets in challenging environments. Whether you need thermal labels for machinery or outdoor asset tags for shipping containers, selecting the right materials and adhesives is key to overcoming harsh conditions.

Why is outdoor labeling so difficult?

Labeling assets in outdoor environments presents unique challenges due to exposure to weather and natural elements. Harsh environment labeling must contend with rain, snow, humidity, extreme temperatures, UV radiation, and abrasive forces like wind or hail. Moisture from rain or high humidity can seep under labels, causing peeling or ink smudging.

Do you need outdoor battery labeling?

Battery labeling for outdoor power equipment or electric vehicles must withstand extreme temperatures and scratches to meet labeling compliance. Agricultural assets, like tractors or silos, encounter dust, moisture, and hail, while signage or park benches need custom outdoor labels to resist vandalism and weather.

Outdoor base station label material

Specialty Label Materials - Weatherproof and ...

6 days ago · For outdoor label applications, the Lexan clear Polycarbonate overlamine will protect your printed material from extreme moisture and ...

MultiTech Outdoor Base Station BS422

May 14, 2024 · MultiTech Outdoor Base Station BS422 DAMM® MultiTech Outdoor Base Station BS422 Unlock a new level of connectivity, efficiency, and cost savings. This compact, rugged, ...

MultiTech outdoor BS422

The DAMM MultiTech Outdoor Base Station BS422 delivers maximum uptime for any radio network. It combines all the power and functionality you would expect from a state-of-the-art ...

Electronic shelf label base station
