

Palestinian folding container 60kW transaction terms

Overview

What is a full container load (FCL)?

Most freight shipments use containers, or pallets, crates, and boxes that fit into containers or airplane hold. There are seven incoterms dedicated to this type of cargo. A full container load (FCL) is where the shipment is to be the only one in a container.

What is a consolidated shipment?

Multiple shipments from different sellers to a single consignee that are consolidated by the carrier into a single shipment. A reduced rate offered to a shipper who tenders two or more class-related shipments at one time and one place. Freight that is moved by air transportation. An enterprise that offers transportation service via air.

What is a full container load?

A full container load (FCL) is where the shipment is to be the only one in a container. Smaller ocean freight shipments, that will be consolidated with other shipments in a container, are called less than a container load (LCL). Ocean containers are never used in air freight (although they would fit into an Anatov 225). 6. What is Terminal
