

Portable power source factory in Sydney

Overview

What are APS power portable power stations?

APS Power's portable power stations provide a convenient, dependable energy source wherever you need it. Compact and easy to transport, these stations are perfect for remote locations, outdoor events, or emergency backup power.

What is a portable generator?

A portable generator is a lower-cost alternative to home standby generators that requires no installation. The engine is propelled by either gasoline, liquid propane, natural gas, or diesel, which will provide you with ready-to-go portable power.

What is a portable power station?

Instagrid's portable power stations deliver reliable and sustainable energy for a range of industrial and commercial situations. Featuring quick recharging and a lightweight design, they are indispensable for any project. To learn more about our portable power solutions reach out to the friendly team at APS today.

Which diesel generators are available in Australia?

We stock leading brands like Denyo, Kubota, and FG Wilson, as well as diesel generators with a Cummins and a Perkins Engine, that are built to last and withstand Australia's tough conditions, even across remote, off-grid, isolated locations. Our selection of single phase, 3 phase, and Turkey rental diesel generators range from 10kVA to 1100kVA.
