

Price Comparison of Off-Grid Solar Containerized Units in South Africa

Overview

How much does an off-grid solar system cost in South Africa?

According to GreenCape, the cost of a solar system can be repaid within just five years. So, what's a realistic off-grid solar system price in South Africa?

The range you can expect to pay to take your home completely off grid is between R150,000 and R350,000.

What is the real cost of South Africa's power grid?

The real cost of South Africa's power grid, including the cost of generation (coal, nuclear, etc.), transmission, and distribution, is estimated to be R200 billion or more. This is significantly higher than the written-down book value at historic cost of R26.4 billion, reported in March 2006.

What is an off grid Solar System?

An off grid solar system operates completely independently of the municipal electricity grid. It stores energy using batteries and powers your home or business even when the sun isn't shining. Key features include:.

Are solar panels affordable in South Africa in 2025?

In 2025, South Africans have more affordable solar panel deals than ever before. Whether you're shopping at PEP for basics like small panels, going premium with Rubicon and Solar Advice, or financing through banks like FNB and Nedbank, there is a solution for every budget.
