Price List for Mobile Photovoltaic Containerized Data Centers

Overview

What is a prefabricated modular data center?

Answer a few simple questions so we can connect you with a solutions specialist in your industry. Prefabricated modular data centers, also known as integrated modular solutions or containerized data centers, are engineered to meet business-specific requirements to fit in a right-sized secure infrastructure.

What are the most common mobile data center use cases?

Here are some of the most common mobile data center use cases: Used during facility renovations, seasonal demand spikes, or IT refreshes where quick, short-term compute is needed. Ideal for emergency scenarios. These units can be rapidly deployed to restore data access and computing power in remote or impacted areas.

Why should you choose Vertiv data center solutions?

Rapidly expand your data center capacity, efficiency and agility with Vertiv's prefabricated modular data center solutions. A viable solution for IT anytime, anywhere.

What is a containerized build?

Containerized builds are cost-efficient, fast to deploy, and highly durable, making them perfect for projects where speed and flexibility matter most. For larger-scale or more complex builds, our steel-frame modules offer greater design flexibility and load capacity.
