What factors affect the cost of shipping containers in South Africa?

Several elements impact the cost of shipping containers in South Africa: Condition: New containers are more expensive than used ones. Refurbished containers offer a middle ground in terms of price and quality. Size: Larger containers (40ft) typically cost more than smaller ones (20ft), but they offer better value per cubic meter.

What is a high cube container?

Type: High Cube (HC) containers, which are taller than standard General Purpose (GP) containers, may come at a premium. Location: Prices can differ between cities like Johannesburg, Durban, and Cape Town due to transportation costs and local demand.
