

Price reduction for after-sales service of 60kWh folding container

Overview

Will a 60% tariff increase energy storage costs?

“What we found is that with the 60% tariff, the cost [of a turnkey energy storage system] increases by 60% compared to 2025, so this is quite a big cost jump if the US actually decided to do so,” Kikuma says.

Will US energy storage growth slow down in 2026?

That means costs in 2026 would return back to 2024 levels which could slow down the growth in US energy storage deployments, but the analyst says that even so, BNEF anticipates that the momentum of the country’s energy storage industry and growth in deployments would remain strong.

How to reduce the need for after-sales service?

Generally, the more servicing a product needs, the less happy your customers will be. Training agents on how to explain to customers the use, functionality and maintenance of a product helps reduce the need for after-sales service. Below is another resource that will help you improve your business performance:.

Will Section 301 tariffs rise in 2026?

BNEF modelled forecast scenarios reflecting both that planned 2026 rise in Section 301 tariffs, as well as a potential extra 10% hike on top, and a more extreme outlook reflecting a 60% tariff rate being placed on battery racks imported from China in 2026.
