Overview

What is a 50kw Solar System?

In rural areas where access to the main power grid is limited, Maxbo's 50kW solar systems serve as reliable energy sources, providing the necessary power for residential homes, schools, health clinics, and community centers. These systems bring modern amenities to off-grid locations, enhancing quality of life and supporting community development.

Why should you choose a 50kw Solar System?

With a 50kW solar power system, users can achieve substantial cost savings by generating their own electricity. By reducing reliance on grid-based power, these systems cut utility bills and protect users from rising energy prices. Maxbo's 50kW solar systems contribute to a cleaner environment by reducing greenhouse gas emissions.

Can a 50kw Solar System be used for industrial applications?

Maxbo's 50kW solar system is also adaptable for industrial applications, where high-powered equipment and continuous operation are essential. Our systems are engineered with robust components, reinforced solar panels, and heavy-duty inverters capable of handling the demands of industrial machinery.

What is a 5kw solar storage system?

The 5kw solar storage system was installed in 2018. We were initially attracted to the idea of using lithium batteries at night while solar power supply our house during the day. In addition, it can also provide seamless grid failure protection.
