

# **Quotation for foldable containers used in European islands with grid connection**

## Overview

---

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

What is a dedicated shipping container?

Dedicated shipping containers are used for the transport of general cargo and cargo that is temperature-sensitive. The International Maritime Organization (IMO) introduced standardization of containers in the late 1960s' aimed at bringing consistency in the loading, unloading, and transportation of such containers.

What is the difference between intermodal and dedicated shipping containers?

Intermodal containers that can be transported and shifted easily between the three modes of transport – sea, rail, or land account for transporting roughly 85% of the global cargo. Dedicated shipping containers are used for the transport of general cargo and cargo that is temperature-sensitive.

What is a 4fold container?

This container is called the 4FOLD. HCI claims an amazing 75% saving in space as four 4FOLD containers, when stacked, take only the space of a single conventional rigid container. This would mean less cost on transportation of empty containers, their storage, and other associated costs.
