

Quote for solar container government subsidies

Overview

What is the subsidy on solar?

Subsidy on solar is an initiative by the Government of India to promote clean and green energy. It aims to make solar power accessible to both corporate and private sectors, helping you save money and reduce dependence on the government grid.

How will the government invest in shared solar?

The government's investment will provide shared solar systems and help to lower electricity costs for up to 25,000 households. Shared community solar banks help households who can't install their own systems. This will allow more households to benefit from renewable energy, including people who:.

What is a solar rebate or subsidy?

A rebate or subsidy will cover part or all of the upfront cost of buying solar or a battery. Rebate schemes operated by states, territories and local governments sometimes only apply to particular groups of people or types of housing, such as social housing, rental properties or apartments. Eligibility criteria may relate to:.

How can I save money on a rooftop solar system?

There are government subsidies, rebates and loan options that can help you pay for rooftop solar or an associated battery for your home or business. You can save money on a rooftop solar system for your home or business through a range of government assistance schemes.
