

# Romania imported solar container battery price

## Overview

---

Can a prosumer install a solar system in Romania?

Romania's parliament has adopted a bill mandating prosumers with PV systems with capacities from 10.8 kW to 400 kW to install energy storage systems. OMV Petrom, a majority-owned Romanian oil and gas supplier, has purchased a 50% stake in three solar projects in Romania.

How many GW of energy storage will Romania have?

Romania is aiming to have at least 2.5 GW of energy storage installed by the end of next year and to exceed 5 GW only a year later. Romania's parliament has adopted a bill mandating prosumers with PV systems with capacities from 10.8 kW to 400 kW to install energy storage systems.

How many MW of solar will be built in Romania?

The first round will include 500 MW of solar, with the remaining capacity to be allocated in next year's tender. The European Bank for Reconstruction and Development and Eiffel Investment Group are providing €24.4 million in funding for the construction of a 60 MW solar plant in southern Romania.

Who owns Romania's first floating solar project?

OMV Petrom, a majority-owned Romanian oil and gas supplier, has purchased a 50% stake in three solar projects in Romania. Romanian energy company TMK Hydroenergy Power has switched on the country's first floating solar project. The facility, located on a pond in Caras Severin county, is connected to a hydropower plant.
