

# **Scalable Government Procurement of Foldable Containers for Mining**

## Overview

---

How can a government reduce the cost of a foldable container?

It would also be helpful for governments to invest in research and innovation of the equipment technology for handling foldable containers to reduce the fixed cost. Meanwhile, policies that can motivate container companies to supply more foldable containers to the market would also have a positive effect.

How does spendedge help mining companies?

SpendEdge empowers mining firms with data-driven procurement strategies that optimize the supply chain from requisition to invoicing. Mining procurement: How do Procurement Best Practices help Mining Companies?

.

Can repositioning empty containers reduce the cost of hinterland transport?

Shintani et al. (2010) focused on three scenarios for repositioning empty containers with foldable and standard containers in a hinterland, and the results showed that using foldable containers could reduce the total management cost for hinterland transport compared with the use of standard containers.

Can Procurement & Supply be a strategic value driver for mining companies?

Axis Group Global Procurement & Supply has supported mining projects and operations for over 20 years and we share insights on how procurement and supply can be a strategic value driver for mining companies around the world. "Supply chain issues and risks have never impacted our business as directly and as significantly as they do today.
