

# **Schools use folding shipping containers for government procurement**

## Overview

---

Why do schools use shipping containers?

The school had already used two standard shipping containers for storage on site and was familiar with the cost saving advantages of using shipping containers instead of traditional building space. This project for classroom conversion was more ambitious.

What are schools' responsibilities for shipping containers on their grounds?

This policy sets out schools' responsibilities for shipping containers on their grounds, including use, legal compliance and possible building permit requirements. requires the Department, so far as is reasonably practicable, to provide and maintain for employees a working environment that is safe and without risk to health.

Do schools have a risk management policy for shipping containers?

Before using shipping containers for storage or other purposes, schools must follow the OHS Risk Management Policy for identifying and managing any potential risks to peoples' health and safety, in consultation with impacted employees and their representatives.

Do schools need a building permit for shipping containers?

Schools may require building permits to place shipping containers on their grounds. If schools use shipping containers as storage or sheds on their grounds, they must consider the class and size of the 'building' that a container is classified as under the National Construction Code. This determines if a building permit is required.
