

# Shopping mall uses off-grid solar container with 20kW

## Overview

---

Can a rooftop solar system carry a mall's full load?

“The rooftop solar system can carry the mall’s full load during the day, and the BESS is sized to ensure autonomy during load shedding and even unexpected grid failures using smart load management and diesel generation,” said Charl du Plessis from EP Power.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Is Heidelberg mall going off-grid?

Heidelberg Mall in Gauteng is going 100% off-grid thanks to a 3.2 MWp, 3.1 MWh hybrid power project. Energy Partners (EP) delivered the hybrid project to the Futuregrowth Community Property Fund-owned mall, ensuring a 24/7 uninterrupted power supply, handling loads of up to 2.5MVA and reducing the mall’s overall electricity expenditure.
