

Single supercapacitor manufacturer in Gothenburg Sweden

Overview

Sechsa manufacturing and marketing energy storage and power delivery solutions for grid, automotive, heavy transportation, renewable energy backup power, UPS. What are Sech ultracapacitors?

SECH ultracapacitors, also known as supercapacitors, are energy storage devices that can store and deliver energy very fast and with a high efficiency.

What is the global supercapacitor market?

Supercapacitors, also known as ultracapacitors, are becoming a critical component in modern energy storage solutions. According to Statistics MRC, the Global Supercapacitor Market is accounted for \$5.08 billion in 2024 and is expected to reach \$11.16 billion by 2030 growing at a CAGR of 14.0% during the forecast period.

How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.

What are supercapacitors & how do they work?

Supercapacitors, or ultracapacitors, are state-of-the-art energy storage devices that have the potential to completely transform a number of different industries. Unlike traditional batteries, supercapacitors can charge and discharge rapidly, making them ideal for applications that require quick bursts of energy.
