

Small outdoor solar charger

Overview

From portable solar chargers that can accommodate multiple devices during a family camping trip, to power banks that hold the biggest charge, to lightweight options for backcountry users that weigh under a pound, we reviewed top models to find the best portable solar chargers for most outdoor uses. What is the best solar power charger for outdoor use?

Our overall winner is the 1 pound, 5 ounce BigBlue 28W USB Solar Charger for most outdoor use. It's a simple, lightweight, and powerful solar power charger that seems to provide a little more power than its competition. It will also provide enough power in direct sunlight to charge multiple small devices for one or two people.

What is a solar power charger?

There's a lot to understand about solar power chargers, but at their heart, a small solar panel consists of several photovoltaic cells grouped together to absorb some of the sun's energy and convert it into an electric charge that you can use to charge electronics.

Which solar charger is best for base camping?

The Goal Zero Nomad 50 is a larger solar charger that is our winner for best for base camping. At 50 watts, it's the biggest and heaviest solar charger we tried. Like the Nomad 20, it can be linked to other solar panels and the only one that can be attached in a series to provide even greater charging power to a battery power bank.

What is the smallest solar charger?

Weighing a mere 220 grams and folding down to a small wallet format, the Photon solar power bank is the smallest solar charger that exists. It is perfect for campers, hikers, climbers and cyclists who want enough power to charge their smartphone quickly but who need to keep the weight they carry to a bare minimum.
