

# **Small solar power generation system in Nairobi**

## Overview

---

Who is constructing a solar power plant in Kenya?

French firm Voltalia is the contractor for the engineering, procurement and construction (EPC) of the third largest solar power plant in Kenya, with a capacity of 100 MW. The electricity from the plant will be sold to KPLC at US\$0.12 per kWh.

Which is the largest solar project in Kenya?

The Garissa solar plant, located in Garissa county, in the North Eastern part of Kenya, is currently the largest solar project in Kenya and East Africa, with a capacity of 54.7 MW. It is a US\$138 million utility-scale solar photovoltaic (PV) farm.

Can solar power save lives in rural Kenya?

Health centers can effectively utilize diagnostic and medical equipment, while rural communities gain the ability to store temperature-sensitive medicines, such as those for diabetes. Solar power has improved patient outcomes and helped save lives at rural Kenya clinics (Energy 4 Impact).

Is Kenya a good place to invest in solar energy?

Kenya has a very high potential for solar energy technologies and a thriving market for standalone solar photovoltaic systems thanks to government support, a favorable enabling environment, and the successful rollout of pay-as-you-go solutions. These conditions resulted in 58% of solar energy kit sales in 2023 using cash and PayGo systems.
