

# Solar Container Two-Way Charging Installment Payment

## Overview

---

What is two-way charging?

Two-way charging is a two-way solar tariff for residential and business solar customers. It's designed to: encourage customers to export excess energy generated at times when it's needed the most. Why do we need two-way charging?

.

Can I Opt in to solar two-way charging?

Yes, you can opt in to solar two-way charging, however you will see a \$0 solar export charge on your bill. More information about solar rates in your state.

How does solarfold work?

With Solarfold, you produce energy where it is needed and where it pays off. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and mobile operation.

What is a solarfold photovoltaic container?

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a very short time.
