

Solar air conditioning direct supply

Overview

What is a solar air conditioner?

Deye's innovative solar air conditioner series represents a breakthrough in sustainable cooling technology, combining eco-friendly operation with powerful performance. Our solar air conditioners are designed to significantly reduce electricity costs while providing reliable cooling even in the most challenging environments.

How is a solar air conditioner shipped?

Packaging: The solar air conditioner unit is securely packaged to protect it from potential damage during transportation. The packaging typically includes foam padding, cardboard boxes, and other protective materials.

Transportation: The solar air conditioner is loaded onto a shipping vehicle for transportation.

Why should you choose Deye solar air conditioners?

Our solar air conditioners are designed to significantly reduce electricity costs while providing reliable cooling even in the most challenging environments. Explore Deye's innovative solar air conditioners, designed for efficient cooling using renewable energy, featuring hybrid AC/DC technology, and smart monitoring.

Why should you choose solar air conditioners?

By improving the efficiency through our revolutionary fan design, thus increases the airflow and reducing noise. Our air conditioners produce clean, green cooling and heating. Solar Air Conditioners are manufactured to military standards and have an internationally recognised quality assurance system in place.
