

Solar carport carport installation price

Overview

How much does a solar carport cost?

For a typical 5-kilowatt residential solar carport, homeowners can expect to pay approximately \$15,850 before incentives. After applying the 30% federal solar tax credit, the net cost drops to around \$11,095. Solar carports typically achieve payback periods of 8-12 years, depending on local electricity rates and solar irradiance.

Is installing a solar carport a good investment?

A solar carport allows you to enjoy the benefits of solar without replacing your roof. While it is more expensive than a ground mounted array, it is still a worthwhile investment. The extra cost is due to the larger size and complexity of the framework.

Does a solar carport come with a battery?

In any new solar array, your installer can also supply a battery or EV Charger, if desired, at an additional cost. Delivery and Installation Process. Delivery is not included in the price, phone the office for a delivery quote. The Double Solar Carport is easy enough for DIY installation.

Where can a solar carport be installed?

The solar carports can be installed on a variety of surfaces, such as concrete, asphalt, or even grassy areas. They can be installed on narrow lot spaces, pathways, against retaining walls, fenced areas, office buildings, multi-family homes, affordable housing, community pools, or any other location where space is limited.
