

Solar energy storage equipment manufacturer in Antwerp Belgium

Overview

What is the energy storage project in Belgium?

The main energy storage project in Belgium is the construction and operation of an offshore “energy atoll” (essentially a manmade offshore pumped-storage facility), for which the Electricity Act has been modified in 2014 (see below), in order to support offshore wind-generated electricity production.

Does Belgium have a solar power system?

In Belgium, the share of renewable electricity in the country's overall electricity production has risen steadily in recent years. To avoid the risk of blackouts, large-scale storage facilities associated with solar photovoltaic projects are on the increase.
