

Solar glass for skylight roof

Overview

What is a glass roof & skylight?

Glass roof & skylights provide thermal insulation and solar control as well as more natural daylight into a building, reducing the need for artificial lighting.

Why are glass skylights a good choice?

Why glass?

Roof glazing and glass skylights can safely be used throughout the roof of a building, providing a natural source of daylight that helps reduce the need for artificial lighting, while still addressing solar control and thermal insulation needs.

What is a skylight & a glass ceiling?

Skylights, roof lights or glass ceilings transform interior spaces by maximizing natural light and enhancing ventilation, creating brighter, more comfortable environments.

What is a photovoltaic skylight?

Skylights, also known as roof lights or daylighting windows, enhance interior spaces with natural light and ventilation. Our Photovoltaic Skylight -or energy-generating skylights - does more than bring daylight indoors. It generates clean, renewable energy while offering bioclimatic properties for improved thermal comfort.
