

Solar glass production expansion plan

Overview

Will vitro expand its Wichita Falls location for solar glass production?

Vitro Architectural Glass plans to expand its Wichita Falls, Texas, location for solar glass production after securing \$67 million in government funds. It will have capacity to produce up to 25 million patterned solar glass lites upon completion.

What is the expected growth in solar glass business?

The company said in a statement that it expected significant growth in solar glass business due to the “nearshoring” effect in the United States. In October 2023, it announced an expansion of its contract with First Solar and a plan to invest in a plant in Pennsylvania, as well as in adapting existing PV glass facilities.

Does Vitro Architectural Glass supply First Solar?

Vitro Architectural Glass is supplying First Solar with additional US capacity. In October 2023, it announced an expansion of its contract with First Solar and a plan to invest in a plant in Pennsylvania, as well as in adapting existing PV glass facilities.

Why are solar glass suppliers investing in new production capacity?

As PV module capacity increases, glass suppliers are investing in new solar glass production capacity. New facilities are popping up in North America, with unique features to ensure competitiveness, such as using recycled material.
