

Solar lighting brand in Lyon France

Overview

Who are Solux solar lights?

For more than 10 years and more than 400,000 installations in 60 countries, Solux, a major player in the market, has been designing and developing solar lights offering lighting in all conditions and throughout the year, offering a real ecological alternative to the world of lighting.

How many solar streetlights are there in France?

In less than three years, Senegal has achieved this challenge: 120,000 solar streetlights now illuminate 528 municipalities. In Northern France, Lille powers its energy transition with solar street lighting. In Lille, 160 solar streetlights are powering the energy transition with no cables, no bills, and no emissions.

Who makes solar streetlights?

Our lighting designers and energy engineers skills at the service of your project. Innovative and designed to last, our solar streetlights are simple to install and demonstrate your environmental approach. Novea is leader and precursor of designing and manufacturing off grid solar led streetlights.

Who owns LEC Lyon?

The RAGNI Group acquired LEC Lyon in June 2024. This union is based on shared values: Made in France, made-to-measure and a commitment to preserving the environment. Together, we will offer even more diversified lighting solutions tailored to the specific needs of our customers, while continuing to advocate sensible and responsible public lighting.
