

# **Solar panel manufacturer in Sydney Australia**

## Overview

---

This guide reviews leading players in the Australian solar panel market—including local producers such as Tindo Solar and ASM Solar, alongside international heavyweights like Canadian Solar, Longi, JinkoSolar, and Hanwha Q Cells—to help you make an informed decision. Who makes Australian solar panels?

International solar panel manufacturers like Canadian Solar, Longi Solar, JinkoSolar, and Hanwha Q Cells continue to shape Australia's renewable energy landscape. With their strong global reputations and advanced technologies, they provide Australian homeowners and businesses with reliable, efficient, and future-ready solar solutions.

Who is the best solar panel company in Sydney?

Their commitment to excellence and customer support has firmly established LG Solar as the best solar panel company in Sydney, offering unparalleled solar solutions to meet the growing demands of the Sydney market.

Where are Australian solar modules made?

Australian Solar Manufacturing Pty Ltd is the pioneer company to specialise in the production of high-powered 190-200 watt solar modules in Australia, modules are assembled with imported raw materials such as EVA, TPT, Junction Box, Glass, Silicone, Aluminium frame and solar cell. Components are sourced from Germany, Japan, USA and China.

Are ASM solar panels made in Australia?

Consumer Feedback: While specific reviews are limited, the company is recognized for its pioneering role in Australia's domestic panel assembly and reliable workmanship. ASM provides a made-in-Australia assembly service that supports local industry, though they don't manufacture photovoltaic cells themselves.
