

# Solar panel waterproof tiles

## Overview

---

What are solar panel roof tiles?

Solar panel roof tiles are small photovoltaic panels shaped to look like normal roof tiles. They absorb sunlight to convert it into electricity in the same way that standard solar panels do.

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Are the solar panels waterproof?

All kits come standard with the upgraded 20w solar panel for extra power! The whole system has an IP66 weather proof rating, which means that not only are the units dustproof, but highly water resistant making them perfect for outdoor rural or domestic use! Very high quality.
