

# **Solar power generation with energy storage in Portugal**

## Overview

---

Why should Portugal invest in solar energy?

The sector emphasizes the importance of investing in the national electricity grid and new storage technologies. The goal is to double Portugal's installed capacity by the end of 2025, strengthening the country's role in renewable energy generation. Portugal is experiencing a key moment in the development of photovoltaic solar energy.

Is Portugal making progress in solar photovoltaic energy?

Portugal is making progress in solar photovoltaic energy with major projects such as Sonnedix Douro, with a capacity of 150 MW. The sector emphasizes the importance of investing in the national electricity grid and new storage technologies.

Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of €99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

How is solar energy driving the energy transition in Portugal?

Photovoltaic solar energy is driving the energy transition in Portugal with large-scale plants and new grid challenges. Portugal is making progress in solar photovoltaic energy with major projects such as Sonnedix Douro, with a capacity of 150 MW.

## Solar power generation with energy storage in Portugal

---

### Portugal Finances 500 MW of Energy Storage

Aug 16, 2024 · The Portuguese Ministry of Energy has allocated EUR100 million for grid flexibility and energy storage projects to be completed by the end of 2025. This initiative aims to enhance ...

---

### Galp and Powin install a large-scale energy storage system in Portugal

Apr 16, 2025 · The collaboration between Galp and Powin has begun the installation of a large-scale battery energy storage system in Alcoutim, a small town located in the sunny Algarve ...

---

### Energy Storage Roadmap in Portugal

May 30, 2025 · Why it is relevant to Portugal? The growth of solar and wind generation by 2030 could result in 3-5 TWh of curtailment which storage can capture during solar peaks, then ...

---

### Portugal Finances 500 MW of Energy Storage

Aug 16, 2024 · The Portuguese Ministry of Energy has allocated EUR100 million for grid flexibility and energy storage projects to be completed by the end ...

---

### In 2025, Portugal Will Accelerate Solar Energy and Storage

Jan 16, 2025 · With more than 12 GW of projected solar capacity, advancements in energy storage, and regulatory stability, Portugal is becoming a major renewable energy leader, ...

---

### Photovoltaic solar energy is driving the energy transition in Portugal

Jun 19, 2025 · Portugal is making progress in solar photovoltaic energy with major projects such as Sonnedix Douro, with a capacity of 150 MW. The sector emphasizes the importance of ...

---

### Top 10 Energy Storage Companies in Portugal , PF Nexus

Jul 15, 2025 · Portugal is increasing its energy storage capacity in order to achieve an 85% renewable electricity supply by 2030. Storage is now essential for assuring round-the-clock ...

---

### Energy Storage in Portugal: The Next Frontier for Investors

Oct 26, 2025 · Portugal is still in the early phases of its energy storage cycle, creating a unique opportunity for first movers. Recent policy changes allow for co-located solar and storage ...

---

### Galp and Powin to build large-scale energy storage system in Portugal

Feb 7, 2024 · The batteries will allow Galp to store the solar energy produced in periods of high generation, and to deploy it during periods of high demand, maximizing the energy's value. ...

---

### ELECTRICITY STORAGE IN PORTUGAL

Nov 7, 2025 · In the period from January to August 2025, Portugal generated 33,107 GWh of electricity, with renewables accounting for 76.9% of total generation--the fourth-highest share ...

---

Energy Storage: The Key to the Stability of Portugal's Power ...

Sep 18, 2025 · The future of Portugal's power grid lies not only in generating more clean energy but in managing it intelligently. Storage is both the brain and the muscle of this new grid. The ...
