Overview

Does Iraq have a solar power plant?

The contracts also cover a water intake project for injection into oil reservoirs. The solar power plant will be Iraq's first utility-scale solar power project. While the country has several other solar plans in the pipeline, the TotalEnergies project is the first to proceed to the implementation phase.

Why is Iraq implementing large-scale solar power projects?

The projects are part of an ambitious plan to implement large-scale solar power projects in an effort to ease the country's chronic electricity shortages. Deputy Minister of Electricity Adel Karim said Iraq has solar projects with a combined capacity of 12,500 megawatts either being implemented, in the approval process, or under negotiation.
