

Somaliland Communications Company 5g base station

Overview

Will Somaliland have a 5G network in 2024?

Telesom's officials when they launched Somaliland's first ever 5G connectivity on January 1, 2024 in the city of Hargeisa. In attendance are Somaliland's Vice President Abdirahman Abdillahi Saylici, ICT minister Dr Ahmed Yousuf Idiris, and minister for Investment and Industrial Development Abdirazak Ibrahim Mohamed.

Why is Telesom launching 5G in Somaliland?

Telesom, on its part, will need to secure its new network since the decentralised nature of 5G networks, with more data being processed at the edge, opens up new points of vulnerability. However, the launch of 5G in Somaliland represents a powerful symbol of the country's unwavering spirit amidst existential challenges.

Is 5G affordable in Somalia?

However, challenges remain. Infrastructure rollout is in its early stages, currently limited to major cities. While affordability will also be a crucial factor for mass 5G mobile adoption, Somalia already ranks in the top five African countries with the most affordable mobile internet.

Why is Telesom launching 5G & FWA services?

Telesom's commitment to technological advancement aligns with the national vision for a digitally connected and empowered Somaliland. The company believes that the introduction of 5G and FWA services will not only enrich the lives of individuals but also catalyze economic growth and innovation across various sectors.
