What is a solar inverter?

Solar inverters are devices that convert direct current (DC) generated by solar panels into alternating current (AC) for use in homes. During load shedding, solar inverters play a crucial role in managing energy supply and maintaining power availability. Solar inverters can have different types. Each type offers unique attributes.

Are your solar inverters compliant?

All our solar inverter models have been fully tested and proven compliant with local and national standards and regulations. They can easily withstand the dusty, hot weather conditions in South Africa, helping you maximize solar power at your home or business.
