

# Supply of solar energy intelligent control system in Oman

## Overview

---

What is the solar power potential in Oman?

Oman receives a tremendous amount of solar radiation throughout the year, which is among the highest in the world. There is significant scope for harnessing and developing solar energy resources throughout the Sultanate.

Which countries are developing a 100 MW solar project in Oman?

In February 2019, a consortium led by Japan's Marubeni signed a power purchase agreement (PPA) with PDO Oman to develop a 100MW PV solar project at Amin. In March 2019, a consortium of Saudi and Kuwaiti firms secured financing for the 500 megawatt (MW) solar photovoltaic (PV) independent power project (IPP) at Ibri in Oman.

Can Oman's power sector regulate rooftop solar panels?

The Authority for Electricity Regulation Oman (AER) – Oman's power sector regulator, is taking steps to pave the way for homeowners to install rooftop solar panels. Any surplus electricity generated can be sent back into the national grid.

How has Oman restructured its energy sector?

In 2018, Oman restructured its utilities sector, making the Ministry of Oil & Gas (MOG) the main policymaker for all energy projects, and the MOG has also led on the implementation of several renewable energy projects.

## Supply of solar energy intelligent control system in Oman

---

### Oman Energy Situation

To ensure energy supply in the following decades, "the Authority remains committed to finding ways in which Oman can benefit from its abundant ...
