

The flow battery industry is growing explosively

Overview

BOSTON, Jan. 31, 2025 /PRNewswire/ -- According to the latest study from BCC Research, "Flow Batteries: Global Markets" is expected to grow from \$416.3 million in 2024 to \$1.1 billion by the end of 2029, at a compound annual growth rate (CAGR) of 21.7% from 2024 through 2029. What is the global flow battery market size?

The global flow battery market size was valued at USD 328.1 million in 2022. This market is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030, primarily driven by the rising demand for energy storage systems globally.

What is the expected CAGR of the flow battery market?

The global flow battery market size was valued at USD 328.1 million in 2022 and is anticipated to grow at a compound annual growth rate (CAGR) of 22.6% from 2023 to 2030. The rising demand for energy storage systems globally is the primary factor for market growth.

What factors restraining the global flow battery market growth?

The high cost, the low energy density, the lack of standardization, the competition from other energy storage markets such as the lithium-ion battery market, and other battery markets and the availability of raw materials are some of the primary factors restraining the worldwide flow battery market growth. What are Flow Batteries?

.

Why is North America a major market for flow batteries?

The North American region has become a significant market for flow batteries, owing to the growing demand for energy storage devices and the rising adoption of renewable energy sources.
