

# The largest battery energy storage station in San Diego

## Overview

---

What happened at California's largest lithium-ion battery energy storage facility?

A fire at a California lithium-ion battery energy storage facility once described as the world's largest has burned for five days, prompting evacuation orders. The fire broke out on Wednesday at the 250MW Gateway Energy Storage facility owned by grid infrastructure developer LS Power in San Diego.

What is the largest battery energy storage project in the world?

The San Diego battery facility came online in 2020 and was billed at the time by grid infrastructure developer LS Power as the largest battery energy storage project in the world. Using LG Chem Lithium-ion cells, it beat the previous record held by a 150MW project in Australia, although has since been surpassed by other facilities.

What happened at Gateway Energy Storage in San Diego?

The fire broke out on Wednesday at the 250MW Gateway Energy Storage facility owned by grid infrastructure developer LS Power in San Diego. A fire crew managed to get the blaze at the 16,000-square foot facility under control after around 24 hours, lifting evacuation orders that were made.

What is UC San Diego's energy storage system?

The 2.5 MW, 5 MWh energy storage system is the latest addition to UC San Diego's portfolio of energy storage devices - one of the most diverse energy storage portfolios of any university in the world. Other devices currently in place include the following with additional energy storage projects being planned as well:

## The largest battery energy storage station in San Diego

---

This new San Diego battery can power ...

Jun 26, 2025 · The new Peregrine Energy Storage Project clocks in at 200 megawatts (MW)/400 megawatt-hours (MWh), making it one of the ...

---

Company erects massive energy facility in ...

Jul 24, 2025 · A massive new battery storage facility just came online, and it's already making an impact in the San Diego area. Arevon Energy recently ...
