

The largest new energy storage power station in Alexandria Egypt

Overview

Will a fourth FSRU help improve gas supply in Egypt?

A fourth FSRU is expected to arrive soon to help improve gas supply. In 2024, natural gas accounted for 47% of Egypt's primary energy consumption and for 81% of its power mix. The same year, Egypt imported 13 bcm of gas (including 4.4 bcm of LNG) World LNG Database offers a complete set of data on LNG markets.

What is Energos power FSRU?

The southern berth at the Tahya Misr station in Alexandria Seaport welcomed the Energos Power FSRU, arriving from Germany. The minister emphasized that the arrival of the new FSRU is part of the ministry's plan to secure the necessary natural gas supplies for power plants during the summer.

How is Energos power ensuring a stable and uninterrupted power supply?

Badawi emphasized ongoing coordination between the Ministries of Petroleum and Electricity, alongside other key stakeholders, to ensure a stable and uninterrupted power supply throughout the summer. The Energos Power has a storage capacity of 174,000 cubic meters of gas.
