

Tiraspol backup ups uninterruptible power supply

Overview

What is an uninterruptible power supply (UPS battery backup)?

An Uninterruptible Power Supply (aka a UPS Battery Backup) protects vital connected equipment -- computers, servers, and telecommunications equipment -- from power outages. During an outage, that small UPS Battery Backup under your desk at work gives you enough time to save your spreadsheet and properly shut down your computer.

What is a ups & how does it work?

What is a UPS?

UPS stands for uninterruptible power supply, it's a device that acts as a battery backup in case of an electrical power failure. Small UPS machines for homes and offices supply enough power for a few minutes, so there's time to turn off devices properly without losing any work.

How do I choose the right uninterruptible power supply (UPS)?

Selecting the right Uninterruptible Power Supply (UPS) requires understanding your specific power needs. We'll guide you through the key factors to consider when purchasing a UPS system. First, calculate the total power draw of equipment you need to protect. Add up the wattage of all devices to determine the minimum capacity needed.

What is UPS battery backup?

During an outage, that small UPS Battery Backup under your desk at work gives you enough time to save your spreadsheet and properly shut down your computer. For data centers, a massive, 8-ton UPS Battery Backup affords operators a chance to bring on backup generators during a power outage.
