

# Tokyo solar Panel Purchase Cost

## Overview

---

Will Tokyo subsidize solar panels?

In March last year, the Tokyo Metropolitan Government established a 150 billion yen fund to subsidize the installation of solar power generation equipment for Tokyo residents. Subsidies will be provided if solar panels are installed during the construction of new eco-friendly houses or while retrofitting existing houses with insulation.

How much does solar panel installation cost in Japan?

The cost of solar panel installation in Japan varies widely based on several factors. Fundamentally, solar systems can be categorized into residential and commercial installations, with both featuring divergent pricing structures. Residential systems typically range from ¥1,000,000 to ¥2,800,000 depending on the capacity and brand selected.

When will solar panels be required in Tokyo?

Starting April 2025, Tokyo will implement a new regulation requiring solar panels on newly constructed homes. What Is the Mandatory Solar Panel Installation?

Starting in April 2025, Tokyo will require installing solar panels on all new residential buildings.

Can solar power save money in Tokyo?

In the long run, yes. The Tokyo Metropolitan Environment Bureau estimates that installing solar power can contribute to saving about 7,700 yen monthly on your electricity bill in Tokyo. The amount of electricity a solar system can generate directly affects how much energy and money a household can save.
