

# **Tokyo solar container communication station Battery Operation and Maintenance Company**

## Overview

---

What is Kinokawa energy storage plant?

Kinokawa Energy Storage Plant has 64 lithium-ion storage battery containers installed within its premises. With a rated output of 48MW and a rated capacity of 113MWh \*2, it has the largest scale \*3 out of all energy storage plants currently operating within Japan and is the first to begin operation in ORIX's energy storage plant business.

Who will operate a KEPCO storage battery plant?

KEPCO Group company E-Flow LLC will take on the operation of the storage batteries, including transactions on the electricity market, while ORIX Renewable Energy Management Corporation \*5 will be in charge of the plant's operation and maintenance (O&M) work.

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

Where is Toyo solar based?

TOYO Solar sets up a 2GW Solar Cell Manufacturing Facility in Ethiopia, which has started the operation in March, 2025 (Phase I)□ Another 2GW solar cell manufactory in Ethiopia is expected to start operation by the end of Q3, 2025 (Phase II). TOYO Solar has started operation in the module manufactory facility in Texas, U.S. in April, 2025.
