

# **Total investment in London energy storage projects**

## Overview

---

How has energy storage changed in the UK?

RenewableUK's 'EnergyPulse' energy storage report showed that the total pipeline of battery projects has increased from 50.3GW a year ago to 84.8GW, an increase of 68.6 per cent, or 34.5GW. Operational battery storage capacity has grown to 3.5GW, while the capacity of projects under construction has reached 3.8GW.

Who owns the UK solar and battery storage project portfolio?

Credit: Quality Stock Arts/Shutterstock. TotalEnergies has acquired a UK solar and battery storage project portfolio with a combined capacity of 435MW from renewables developer Low Carbon. The deal includes eight advanced-stage solar projects with a combined capacity of 350MW and two battery storage projects with a capacity of 85MW.

Who are the UK energy storage companies?

TotalEnergies, Drax, New Energy Partnership and Queequeg Renewables all feature in the latest UK energy storage update. Battery storage units developed by UK firm Invinity Energy Systems. Image: DCT Media/STS Group.

Will the UK add more energy storage capacity in 2022-2031?

Wood Mackenzie has predicted that the UK will add 25.68GWh of new grid-scale energy storage capacity during the period 2022-2031, more than twice the amount that will be added by Europe's second fastest-growing market, Italy. More due diligence required in future

## Total investment in London energy storage projects

---

TotalEnergies invests in two UK battery storage projects

Jun 3, 2025 · Charging Forward: TotalEnergies invests in UK battery storage projects  
TotalEnergies, Drax, New Energy Partnership and Queequeg Renewables all feature in the ...

---

Development of the UK's Energy Storage Industry: Current

Jul 5, 2024 · The recent development of the UK's energy storage industry has drawn increasing attention from overseas practitioners, achieving significant progress in recent years. According ...

---

TotalEnergies acquires 435MW of renewables portfolio in UK

Jun 3, 2025 · TotalEnergies has acquired a portfolio of solar and battery storage projects in the UK with a combined capacity of 435MW.

---

Top 7 Commercial Battery Energy Storage Projects in UK 2025

2 days ago · Discover the biggest commercial battery storage UK projects in 2025, including NatPower's Teesside GigaPark, Statera's Carrington, RES's Coalburn etc.

---

UK energy storage in 2024: What's the state ...

Jan 4, 2024 · UK energy storage project capacity increased by two-thirds in the last year  
Nation forecast to add more than 25GWh of new grid-scale ...

---

UK energy storage in 2024: What's the state of play?

Jan 4, 2024 · UK energy storage project capacity increased by two-thirds in the last year  
Nation forecast to add more than 25GWh of new grid-scale capacity by 2031 Frequency response ...

---

UK Funds Major Long-Duration Energy Storage Projects

Sep 24, 2025 · The UK's substantial investment in diverse long-duration energy storage technologies is a pivotal move to secure a flexible, cost-effective, and renewable-powered grid.

---

RWE to build its largest battery energy storage facility in the UK

Dec 1, 2025 · RWE is powering ahead with its largest UK storage project -Pembroke Battery Storage, taking a final investment decision.

---

UK energy storage pipeline report 2024 , RenewableUK ...

Jan 5, 2024 · The pipeline of battery storage projects has continued to grow steadily again, from 84.4GW in December 2023 to 95.5GW in May 2024. This edition of the EnergyPulse report on ...

---

TotalEnergies invests in two UK battery ...

Jun 3, 2025 · Charging Forward: TotalEnergies invests in UK battery storage projects  
TotalEnergies, Drax, New Energy Partnership and Queequeg ...

---

### Battery storage capacity in the UK: the state of the pipeline

Dec 19, 2024 · The UK's total battery storage project pipeline currently contains a total of 127GW of capacity. Figure 1 demonstrates the amount of capacity at each development stage as a ...

---

### UK energy storage pipeline report 2024

Jan 5, 2024 · The pipeline of battery storage projects has continued to grow steadily again, from 84.4GW in December 2023 to 95.5GW in May 2024. ...

---

### BESS: Storing Potential for the UK's Energy Future

Dec 1, 2025 · The UK's BESS capacity is set to triple by 2030. Discover how battery storage is crucial for decarbonization, grid stability, and long-duration storage.
