

U S solar Module Project

Overview

How many solar modules will the US produce in 2025?

The U.S. is on track to reach 13 GW of cell manufacturing capacity and 65 GW of module assembly in 2025, said a report from Clean Energy Associates. The United States is now the third-largest solar module manufacturer in the world, and more growth is on the way.

Which country is the third-largest solar module manufacturer in the world?

The United States is now the third-largest solar module manufacturer in the world, and more growth is on the way. Clean Energy Associates (CEA) projects that the U.S. will reach 13 GW of solar cell manufacturing production and 65 GW of module manufacturing by the end of 2025.

Are solar cells a target for the United States?

The cell target is particularly impressive, as Suniva and ES Foundry are the only two plants currently producing cells in the U.S. The expansion of U.S. solar manufacturing capability has been driven by trade barriers and domestic incentives.

Is the Solar factory boom real?

CEA said the solar factory boom is “real — but fragile. While domestic cell and module capacity continues to expand, developers and manufacturers remain cautious amid policy uncertainty and enforcement risks tied to Inflation Reduction Act tax credits.”

U S solar Module Project

U.S. Reaches Historic Solar Module Production Capacity

Oct 31, 2025 · For more information on the aforementioned project and partnership, see August 25, 2025, article - Major U.S. Solar Cell Plant to Start Construction This Year and March 14, ...

SOLAR SUPPLY CHAIN PROJECTS

Nov 8, 2025 · The United States is positioned to create the robust domestic solar photovoltaic (PV) supply chain needed to support the Biden-Harris Administration's ambitious goals to ...

US adds 11.7GW solar PV in Q3, 4.7GW manufacturing ...

4 days ago · The US solar industry registered its third-best overall quarter in record with 11.7GW of new capacity installed in the third quarter of 2025.

U.S. surpasses 50 GW of solar module ...

Feb 4, 2025 · From pv magazine USA Solar module manufacturing in the U.S. has grown five-fold since the passage of the Inflation Reduction Act ...

US adds 11.7GW solar PV in Q3, 4.7GW ...

4 days ago · The US solar industry registered its third-best overall quarter in record with 11.7GW of new capacity installed in the third quarter of 2025.

US solar module manufacturing capacity reaches nearly 40 GW

Dec 4, 2024 · The US boosted its solar module manufacturing capacity by a record 9.3 GW in the third quarter of 2024, with five new or expanded factories in Alabama, Florida, Ohio and ...

Solar Market Insight Report Q4 2025 - SEIA

Dec 8, 2025 · The US added 4.7 GW of solar module manufacturing capacity in Q3, bringing the total to 60.1 GW. Additionally, new wafer manufacturing capacity was brought online via the ...

US solar module manufacturing capacity ...

Dec 4, 2024 · The US boosted its solar module manufacturing capacity by a record 9.3 GW in the third quarter of 2024, with five new or expanded ...

U.S. Solar Manufacturing Industry Hits ...

Feb 5, 2025 · U.S. domestic solar module production capacity has surpassed 50 GW thanks to major policy shifts and investment incentives, making ...

U.S. solar module manufacturing capacity exceeds 50 GW

Feb 4, 2025 · The United States has reached a significant milestone in its solar energy sector, surpassing 50 gigawatts (GW) of solar module manufacturing capacity. This achievement, ...

U.S. surpasses 50 GW of solar module manufacturing capacity

Feb 4, 2025 · From pv magazine USA Solar module manufacturing in the U.S. has grown five-fold since the passage of the Inflation Reduction Act (IRA), the Bipartisan Infrastructure Law and ...

U.S. solar module manufacturing capacity ...

Feb 4, 2025 · The United States has reached a significant milestone in its solar energy sector, surpassing 50 gigawatts (GW) of solar module ...

U.S. solar manufacturing boom "real -- but fragile," said CEA

Apr 1, 2025 · The United States is now the third-largest solar module manufacturer in the world, and more growth is on the way. Clean Energy Associates (CEA) projects that the U.S. will ...

Manufacturer commits \$330 million to massive solar factory ...

1 day ago · A \$330 million investment will bring an estimated 600 jobs to South Carolina. According to PV Magazine, First Solar will build a 1-million-square-foot manufacturing facility in ...

SOLAR SUPPLY CHAIN PROJECTS

Nov 8, 2025 · The United States is positioned to create the robust domestic solar photovoltaic (PV) supply chain needed to support the Biden-Harris ...

U.S. Solar Manufacturing Industry Hits Historic Milestone

Feb 5, 2025 · U.S. domestic solar module production capacity has surpassed 50 GW thanks to major policy shifts and investment incentives, making the USA the world's third-largest solar ...
