

# Uninterruptible Power Supply Agent in North Africa

## Overview

---

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) is an electrical device that filters your incoming power and protects your equipment from spikes, dips, surges, high/low voltages and blackouts. Various backup options are available and the period of backup time depends on the client.

Who are the key players in the global uninterruptible power supply market?

Some of the key players in the global uninterruptible power supply (UPS) market are Aspex Inc., Riello Elettronica SpA, Cyber Power Systems Inc., EATON Corporation PLC, General Electric Company, Emerson Electric Co., Mitsubishi Electric Corporation, Delta Electronics Inc., Hitachi Ltd., ABB Ltd., and Schneider Electric SE.

Are uninterruptible power supply systems reliable?

Uninterruptible power supply systems are highly reliable and responsive that guarantee immediate power supply in a power failure. However, the major concerns associated with these systems is the cost. The adoption of UPS systems requires high amount of initial investment.

Why is the global uninterruptible power supply market so competitive?

The global uninterruptible power supply (UPS) market is highly competitive. This is attributed to continuous launch of new technologies due to ongoing R &D and efforts by value chain participants. Moreover, key players are adopting various business growth strategies in order to expand their presence on regional as well as global basis.
