What is an uninterruptible power supply (UPS)?

What is a UPS?

An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out. Unlike a backup generator, it does not need to power up in order to start generating power.

Why should you buy an uninterruptible power supply?

A UPS serves a backup battery role in case of a sudden power outage, preventing your PC from shutting down before you're able to save your work, close your game, etc. A UPS is an ideal pick for anybody who wants clean and stable power delivery to their PC.
