## Overview

---

What is energy storage BMS?

Energy storage BMS, short for Battery Management System, is the key to the design and operation of battery energy storage systems.

What is energy storage battery management system (BMS)?

In 2022, China saw a significant increase in energy storage lithium battery shipments, reaching 130 GWh, with a remarkable year-on-year growth rate of 170%. Energy storage Battery Management Systems (BMS) have gained importance as core components of electrochemical energy storage systems, driven by policies and market demand.

What is battery management system?

Battery management system used in the field of industrial and commercial energy storage.

What are the top energy storage BMS companies in China?

The article lists the top 10 energy storage BMS companies in China, which are at the forefront of this growing industry: Gold Electronics: Specializes in battery testing equipment and BMS, with international certifications and applications in electric vehicles and storage systems.
