

Victoria Off-Grid Solar Containerized Mobile Type

Overview

A self-contained, transportable hybrid generator available for rent, delivering 24/7 off-grid power with integrated solar, battery storage, and backup generation. What is a containerised mobile solar power generator?

It is the first containerised mobile solar power generator that is specially designed for fixed deployment. This system is suitable for both on-grid and off-grid use, and can be redeployed in less than 24 hours without the need for specialist labour.

What is a Mobil-grid® solar power generator?

The Mobil-Grid® is a plug-and-play PV power generator with a built-in control cell housed within a semi-mobile container. It is the first containerised mobile solar power generator that is specially designed for fixed deployment.

Does GreenTech Engineering offer off-grid power solutions?

Have an independent source of power with Greentech Engineering's Off-Grid Power Solutions. Reliable and affordable solutions for farmers, communities, and more.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
